ATTENTION!

Voters of Santa Cruz County.

Parties in opposition to having the county seat permanently located at Nogales have recently circulated a rumor to the effect that should Nogales obtain the county seat at the coming election an exorbitant price will be charged for the ground necessary for the county buildings. The following extract from the minutes of the last meeting of the city council of Nogales, held Wednesday evening, Oct. 24th, shows the above rumor to be false, and will prove interesting reading to the citizens of Santa Cruz county.

Land Free of Cost.
Extract from the Minutes of the Nogales City Council.

The question was brought up of conveying land in Nogales to the county for county purposes.

Whereupon the mayor stated that as trustees under the U. S. patent for the townsite at Nogales and under the R. S. of Ariz., Chap. 11, Para. 180, Sec. 14, he is required by the law to deed to the county any land that the supervisors deem necessary for a court house and other county purposes, and which the supervisors choose to select, and that as soon as they designated the land desired that the trustee was ready to execute a deed to the supervisors for the property. Free of cost.

F. L. KIEL, Clerk.

W. F. OVERTON, Mayor.

Dr. A. H. Noon, our next legislative assemblyman will represent our little county in a most satisfactory manner to his constituents. He is familiar with the needs of Every section of our county, having for years been a resident of what is now Santa Cruz county. He can be expected to look after the county's interests, intelligently, faithfully and well and it is the duty of those having the county's welfare at heart to help swell the doctor's majority next Monday.

WILLIAM J. BRYAN, has answered the query of the Republicans as to his course, if elected, in regard to silver, and it is to be hoped that they are satisfied with the reply. Like Lincoln, Mr. Bryan refuses to cross a bridge until he comes to it, nor to construe before it is necessary a Republican law in regard to which Republicans differ so widely as they do on the gold law. He says: "I want the Republicans who ask that question to first find out what the law requires, and then I want them to know that if elected President I will enforce that law just as I will enforce the law against trusts, and put striped clothes on big thieves as well as little thieves. But if you ask me to construe a Republican law, I reply that I shall not construe a law until it becomes my duty to enforce it."

THE editor of THE VIDEtte begs the forgiveness of those of our citizens who were asked by him to subscribe for the Tucson Star. At the time Little Johnnie Hughes was in Nogales devoting his time in telling of the greatness of the Star and the fine things it was going to do for the people of Nogales we pitied him, and helped him secure more subscribers here for the Star than that paper ever had in the whole of its misspent life. John was grateful and expressed himself in verse and song of the magnanimity of the people of Nogales. John was so grateful he talked of removing the Star to Nogales, the county seat of Santa Cruz county. He scoffed at the idea of removing the county seat from Nogales, where it rightfully belongs, and almost shed tears, when, after he had "worked" the town to a standstill he took his departure for Patagonia, where he remained several days in the interest of the Star. He evidently was more successful in Patagonia than in Nogales, or in other words, "Patagonia went us one better." As a result the Star is now devoting a department to Patagonia, a little village up on the Sonoita river, as the proper place to locate the seat of government of Santa Cruz county. The paper that would advocate such an absurd piece of damn tomy rot, must have been properly "fixed" for otherwise it would not take the chances of being black-listed in a community the size of Nogales. John Hughes will receive a warm (!) welcome when next he comes to Nogales to get subscribers for the Star.

THE VIDEtte has during the past month received many communications from the various precincts lying outside of Nogales, asking why this paper was not working for the county seat at Nogales. It was not necessary to do so. Nothing had been done by the promoters of the removal scheme in the matter of procuring voters from the outside at the time when they would have become illigible to vote. When the registration closed, the men having charge of the proposition had neglected to do the things expected of county seat boomers, and those of us who had carefully watched events knew there were not enough voters personally interested or fools and knaves in the county to vote the county seat away from our beautiful and prosperous city to a little village, where the majority of the people are said to be miners who prospect the hills for precious metals. If they find these they remain. If they fail to strike it rich they move on. THE VIDEtte hopes that Patagonia will become a good town and believes that in the years to come it will do so, but the future of a mining camp is a mighty uncertain proposition, as many mining men know. Have the backers of Patagonia any more right to say Patagonia and vicinity have a brighter future than Washington and vicinity? In this issue of THE VIDEtte you will find some interesting "facts and figures" under the heading of "citizens and taxpayers of Santa Cruz county," which shows beyond a question of a doubt that Nogales has every

thing in its favor from a taxpayer's standpoint, to ask for the county seat's permanent location here. No matter how big a majority Nogales has over Patagonia, she will be one of the best advertised camps in seven states. But R. R. Richardson has no hopes of winning.

ATTENTION has recently been called to a most remarkable statement by Governor Roosevelt, who boasts, with details, how he shot a Spanish soldier at the battle of San Juan, while the latter was running from him and was only some thirty feet away. The Governor says: "When we reached the trenches we found them filled with dead bodies in the light blue and white uniform of the Spanish regular. Lieutenant Davis' first sergeant, Clarence Gould, killed a Spanish soldier with his revolver just as the Spaniard was aiming at one of my Rough Riders. At about the same time, I also shot one. I was with Henry Bradshar, running up with the double, and two Spaniards leaped from the trenches not ten yards away. As they turned to run I closed in and fired twice, missing the first and killing the second. At the time, I did not know of Gould's exploit and supposed my feat to be unique." "Certainly the Governor's action in telling of it is unique. So far as known no officer in modern warfare has heretofore boasted of shooting down a flying enemy in cold blood. American officers and men have accepted the duty of fighting and killing the enemy as one of the sad necessities of war but have sought to win no glory by gloating over the widows and orphans they were forced to make. Other "great" warriors have been forced to speed the fatal bullet or thrust the deadly sword, but they have sought to forget it. They certainly never boasted of it. Anyone who questions the accuracy of this statement will find it related in Colonel Roosevelt's book. "The Rough Riders," printed immediately after the Spanish War.
